

Raiyan Mirza

Toronto, ON | +1 (437) 655-6844 | raiyan.mirza1233@gmail.com | [Portfolio](#) | [Github](#)

Education

Toronto Metropolitan University | Toronto, ON

Bachelor of Science in Computer Science, Honours | Expected Graduation: April 2028

Extracurricular: I'm involved with the TMU Taekwondo Club, where I train regularly and support club activities, and I also volunteer with the TMU MSA by helping with Jummah prayer and the Marhaba Dinner.

Technical Skills

Languages: C, C++, Python, Java, Bash, sql, rust, html, css

Libraries & Frameworks: Java Swing, Python PIL (Pillow)

Tools: Git (Learning), GitHub (Learning)

Concepts: Object-Oriented Programming (OOP), Data Structures

Projects

Sign Language Interpreter

- Developed a real-time sign language interpreter using computer vision and gesture-recognition techniques. Implemented hand-tracking and classification logic to translate signs into text, demonstrating skills in Python, image processing, and model integration.

Java Drawing Application

- Developed a graphical user interface (GUI) application in **Java Swing** that allows users to draw shapes and lines, demonstrating skills in custom rendering and **event handling**.

Hospital Management UI

- Created a desktop application using **Java Swing** for managing patient and doctor records, showcasing proficiency in **GUI design** and data handling.

Python Image Editor

- Built an image manipulation tool using Python's **Pillow (PIL) library** to perform basic photo-editing functions.

Java Weather App

- Designed a weather application with a graphical interface in **Java Swing** that fetches and displays real-time weather data.

Eshock.it.com | Lilongwe, Malawi Junior Developer | 2019-2021

- Developed and deployed custom e-commerce modules** to enhance platform functionality and improve user experience for digital retail solutions.
- Architected technical solutions** for complex business problems, focusing on system scalability and efficient data handling.
- Managed end-to-end project lifecycles**, ensuring development milestones were met and technical requirements aligned with business goals.
- Assisted in the daily maintenance and optimization of complex systems**, reducing downtime through proactive debugging and system monitoring.

Department of Civil Aviation (Malawi Airport) | Lilongwe, Malawi Technical Assistant

- Coordinated the technical installation of CCTV security systems** and TV displays throughout the terminal to ensure 24/7 operational surveillance.
- Configured and maintained flight information display systems (FIDS)**, ensuring the accurate, real-time relay of critical flight data to passengers.
- Collaborated with engineering teams** to troubleshoot hardware-software integration issues within high-security airport infrastructure.
